

Circulating pump for integration into Endoscope washing machine

Model name: PB-M200DC

Characteristics

- Circulating cleaning liquid and disinfection liquid for Endoscope washer machine
- Canned pump with seal-less type, no liquid leaking in circulating.
- Using high efficiency DC brushless motor
- The driver board is necessary separately

Specifications

Pump Type	Circulating pump
Head	9 m (29.53 ft)
Flow	60L/min (2.12 CFM)
Output	220 W
Input	280 W
Input Voltage	DC280V
Suction connecting	1.26inch diameter, hose connecting type
Discharge connecting	1.26inch diameter, hose connecting type
Dimensions	4.96(D)x6.69(W)x6.46(H) inch
Net Weight	2.7 kg (5.95 Lbs)
